

YANKS GET A FLYING START IN WEST TOUR

(By Associated Press)
New York, June 7.—Waite Hoyt's clever hurling, Bob Meusel's fourth home run of the season and a trio of sensational catches in center field by Whitey Witt, combined to give the Yankees a 3-1 victory over the White Sox and a flying start in their first invasion of the west. Urban Faber followed only six hits to Hoyt's nine, but was outlucked.

Urban Shocker hung up his twelfth victory and St. Louis took the first game from Boston, 5-2. The Browns made an unusual shift in their batting order by moving George Sisler, their all-round star, from third to lead-off position.

The Tigers went on a batting spree at the expense of Hasty and Yarrison, easily defeating the Athletics, 14-1, behind Pilette's good pitching. Heilmann rapped out his eighth circuit clout and Bob Veach also contributed a homer.

Coveleskie weakened in the eighth and ninth after a scoreless pitching duel for seven innings with Erickson, and Washington, aided by Rice's homer, blanked Cleveland, 3-0.

The Braves ran their winning streak up to five and made it six straight from St. Louis by again trimming the Cardinals, 7-2, in the only game played in the National league. Fillingim held the hard-hitting westerners at bay while his teammates, Polk and Nicholson, hit three St. Louis pitchers hard. Brooklyn automatically moved into a tie with St. Louis for third place as a result of the Cardinals' reverse.

The postponed ceremonies attending the raising of the National league pennant by the Giants were scheduled to take place together with the opening of a series with the Cubs today.

Public Ceremony of Klansmen Is Exciting Interest

A buzz of speculation followed the announcement in yesterday's News that there would be a public ceremonial by the Palatka Klan of the Knights of the Ku Klux at the ball park Wednesday evening, and it is evident that a very large audience will be present when the fiery cross appears and the hooded figures slip into the ball park.

Many did not know for certain that there was a Klan here, although anonymous letters sent out recently were attributed to this organization. A letter received by The News and bearing the seal of the organization said that whenever it sent out a communication there could be no doubt as to its origin.

Just how many members are in the local Klan is not known, but it is assumed that all of them will be in regular tomorrow evening.

THRILLING FOX SPECIAL.
"Thunderclap," the remarkable William Fox special scheduled for its premiere showing at the Grand tomorrow, is aptly heralded as "a thrilling melodramatic picture with a laugh every minute and a thrill every thirty seconds."

An all-star cast cleverly depicts the absorbing story of love, intrigue, romance and, last but not least, a horse race yet unequalled on the silver screen.

The colorful story of "Thunderclap" also brings to mind the more exciting days of yesteryear when gambling flourished, when the raucous call of the roulette wheel attendant mingled with the shrill laughter of the bizarre feminine and when fortunes changed hands with monotonous regularity.

Into this world of gilt and flushed cheeks there comes the girl of the convent, ignorant of the ways of the wily but strong of character and of purpose. Her experiences in this new world, the discovery of a true friend beneath the reeking atmosphere of drink and smoke and the result of the track performance of "Thunderclap" combine for a story which charms at the very outset and fascinates until the unwelcome end.

RIDLEY IS IN JAX SPELLBINDING SHOE DEALERS WITH HIS ORATORY

Ridley Wilkinson, president of the Southeastern Retail Shoe Dealers Association, comprising five states, is presiding at the seventh annual convention of that association in Jacksonville, and incidentally is doing and has done some fine word painting of the beauties of Florida in welcoming the visitors from the arid regions of Georgia, Alabama and South Carolina. His address of welcome was a gem of oratorical effort, and no doubt made a profound impression on these present.

Big retail shoe dealers from all of the states in the association are attending the convention and it is a distinct honor that the President is one of Palatka's retail shoe dealers, who has indicated his progressive spirit by activity in the organization of men of his line.

In his address of welcome Ridley poured the statistics out first, then glossed them over with a layer of beautiful flowers and fruits, into which he stirred a little balmy climate, approaching the climax in which he was forced to compare the state to the Garden of Eden to maintain his high speed. It was some address and Palatka is proud of its newly discovered Demosthenes.

Boy Scout and school society meetings. It has been said that the manager plan would fail except in towns, villages, and small cities where they have street-corner counsel, where the people know one another and know the manager and he can keep in personal touch with them. The manager cities with over 100,000 population are Dayton (adopted 1915), Grand Rapids (1917, Norfolk (1918), Akron (1920), and Nashville (1921). If the larger the city the bigger the man required, then Cleveland would require a manager four times as big as Akron and seven times as big as Norfolk.

Tom Johnson of old stirred the civic spirit of Cleveland in more ways than one. But he ran for office on the democratic ticket. His was in one sense the same old fight of the ins against the outs who were later to become the ins and then again the outs.

TO PAVE THIRTEENTH.
Chairman Jarrett, of the finance committee, reported that the city hadn't the money with which to connect up the Heights paving with Thirteenth street, two blocks, but on motion it was decided to borrow the necessary funds and pay 8 per cent for it so that the work can all be completed in one job.

Alderman Johnson reported that the baseball scoreboard on Olive street, erected to prevent outside grandstands from seeing the ball games without paying for it, will be moved, as it is now located in the street.

The committee to which was referred the matter of making investigations for a county fair, asked for more time.

J. D. Points will be asked to hurry the work of making repairs to the city hall roof, as per a contract entered into with the city.

The committee to redistrict the city in accordance with an agreement reached at the last session of council, was announced by President Smith, as follows: From council, B. C. Pearce, E. I. Jarrett, A. Waite; from the city at large, Howell A. Davis and J. H. Yelverton.

A recess meeting will be held Friday night to consider a sanitary ordinance to enforce connections with the sewers, as recommended by Mayor Steen.

HOW AMERICAN CITIES ARE SEEING NECESSITY TO

(Continued from page 2.)
death rate from 25 to 11 per thousand? That Petersburg, Va. (population 31,012), has opened seven new playgrounds? That Alameda, Cal. (population 28,500), now cleans its streets twice a day instead of three times a week, make so profit on garbage, and has added a baby clinic, milk, dairy, and food inspection to health work? That Jackson, Mich. (population 48,374), has a prenatal clinic, has reduced infant mortality and rated its restaurants for cleanliness? That Wichita, Kans. (population 72,217), is giving municipal entertainments with leading grand opera singers and admission only from 10 to 50 cents? That Webster City, Iowa (population 4,057), has reduced the tax rate from 40.5 mills to 34 mills? That Rapid City, S. Dak. (population 5,777), the first city in South Dakota to adopt the commission-manager form, is satisfied with it?

The smallest places that have the manager form, or commission form, are McCracken, Kans., with 491 people; Columbus, Mont., with 987; Erick, Okla., with 971; Osborne, Pa., with 358, and Grosse Pointe Shores, Mich., with 519. Little Grosse Pointe Shores, by the way, is up and doing. It has decreased water rates by 43 per cent, turned a deficit into a balance, built a pier 1,300 feet long into Lake St. Clair, and has a community building for athletics, dances, and

PRIVATE NORMAL CLASS.
J. N. Overhultz will conduct a private normal class at Green Cove Springs, beginning June 19, and continuing eight weeks. Tuition \$10 for the term. The principal holds First Life and Life State Certificates and has been successful in the work. If you wish to prepare for first, second or third grade certificates, come. I review on all subjects. J. N. O. 6-7-34

The City of Good Complainers.
Cleveland had as many murders a year as London, England, with eight times her population, and a higher percentage than thirty-one other large American cities, though not as high as St. Louis and Washington. She had more robberies and assaults with intent to rob than England, Scotland and Wales, with a population of 40,000,000. Her burglary insurance rates were the highest of any American city.

And what was Cleveland paying for this state of affairs? She was following the "rich-and-can-afford-it" system of New York, which keeps on floating bonds without ever considering the reduction of her debt. In ten years Cleveland's debt had increased from \$33,985,000 to \$84,977,000, and she was facing further deficits. Her per capita debt was \$103, and her city tax rate \$9.63 per \$1,000 compared to \$52.98 and \$7.65 for Dayton, \$73.44 and \$6.03 for Akron, and \$31.72 and \$6.53 for Springfield.

These three—Dayton, Akron, and Springfield—were manager cities, and they and the experts' survey were the telling arguments for applying the manager system to Cleveland. Frederick Kohler, Tom Johnson's redoubtable chief of police, ran for mayor under the slogan: "Elect your city manager, Now!" Under Johnson, Kohler had been a ruthless master who put the "fear of God" into the criminal element and ruled the "force" with a rod of iron. He ought to be able again to clean up police graft and slackness. It was well known that wherever the manager system had been tried out it had the law breakers and the bribe givers and bribe takers against it because it had organized the police, on the Ashburner plan, with firm discipline.

Or any Realtor in the City.

Men Who Have Purchased

and know what the STEVENSON GEAR COMPANY are doing. Mr. Sones purchased a large block of stock and will buy more. He at one time was mechanical engineer for the Nash car at Kenosha, Wis. An investment in this company is worthy of your consideration. Mr. Sones saved \$750 on his purchase from me, as he tried to buy stock in Indianapolis. It was at a premium then, and he came back and bought from me, as I am compelled to sell at par by the State Comptroller.

READ LETTERS BELOW

Mr. W. E. Woods,
St. Augustine, Fla.

Dear Sir:

I have been told that there was a certain amount of Stevenson Gear Stock to be sold in Florida and that you were the proper person to get in touch with regarding it. I have been through the factory in Indianapolis since they have been located in their new building with Dr. Elmer Johns, who visited here some time ago, and wish to purchase some stock in the company. Will you kindly advise me how many shares of Preferred Stock are available at ten dollars per share, with one of Common free with three of Preferred. Thanking you for your prompt attention, I am,
Very truly yours,
P. J. SONES.

W. W. SHULTZ

Motor Supplies—Filling Station

Haines City, Florida, March 12, 1932

Mr. G. Norman Baughman,
Tampa, Fla.

Dear Mr. Baughman:

This will introduce to you Mr. Wood, who is personally known to me to be of reliable character, and his proposition is excellent, and I have stock in this company and acquired same from a friend who is affiliated with the organization in Indianapolis before I became acquainted with Mr. Wood.

Your mechanical ability will readily point out to you the field for this enterprise, and its field is not limited.

P. J. Sones is one of the best factory experienced mechanics and was interested enough to stop at the Indianapolis factory on his return from the north this fall and investigated the proposition, and has taken stock to all his ability and wants more as soon as he can get it.

Look over this proposition and let Mr. Wood show you what he has and I think you will be interested beyond your expectations.

Respectfully yours,
W. W. SHULTZ.

Will be pleased to show the samples of their work and explain all details concerning this marvelous machine—at
